

CONCRETE BATCHING PLANT

Serving Ready-Mix Concrete, Major Construction Projects, and the Precast Industry.

Himalaya Engineering Company delivers high-performance Concrete Batching Plants for ready-mix concrete, construction projects, and precast industries. Available in Mobile, Compact, and Stationary models, our plants are designed for precision, durability, and efficiency. Whether producing Roller Compacted Concrete, Road Concrete, Extra Heavy Concrete, or Fiber-Reinforced Concrete, Himalaya ensures consistent quality in every batch. Our Single Shaft, Twin Shaft, Planetary, and Pan Mixers offer unmatched versatility, while our advanced components boost productivity and operational excellence.

STATIONARY CONCRETE BATCHING PLANT

Himalaya's state-of-the-art Twin Shaft, Planetary, and Pan Concrete Mixers provide outstanding versatility and efficiency throughout the production process, ensuring premium quality in every batch. Complementing these are our wide range of components and customization options, meticulously designed to elevate performance, optimize operations, and deliver unmatched precision, reliability, and flexibility to the concrete industry.

TECHNICAL SPECIFICATION

Model	HSCB 20	HSCB 30	HSCB 45	HSCB 60	HSCB 75	HSCB 90	HSCB 120
Concrete Output	25 m³/h	35 m³/h	45 m³/h	60 m³/h	75 m³/h	90 m³/h	120 m³/h
Mixer Unit	TURBO PAN TYPE MIXER/ TWIN SHAFT MIXER						
Material Storage Capacity	20 m³/h	30 m³/h	40 m³/h	40/60 m³/h	60/75 m³/h	90 m³/h	100 m³/h
Aggregate Bin	4 x 4 m³	4 x 5 m³	4 x 7.5 m³	4 x 10 m³	4 x 12 m³	4 x 15 m³	4 x 20 m³
Aggregate Tansfer	BELT TYPE						
Material Weighing System	Accurate digital load-cell-based weighing system for aggregates, cement, water, and additives — each measured separately for precision.						
Additive cap.	10 Kg	10 Kg	10 Kg	10 Kg	20 Kg	20 Kg	20 Kg
Control Panel	FULLY AUTOMATIC PLC-BASED CONTROL PANEL
